Please enter the number of work hours saved by <i>going digital</i>	00
Bentley Brands Used	<input checked="" type="checkbox"/> Bentley LumenRT <input checked="" type="checkbox"/> iTwin <input checked="" type="checkbox"/> MicroStation <input checked="" type="checkbox"/> OpenRoads Designer <input checked="" type="checkbox"/> Seequent Central

✓ SYNCHRO

✓ Other

Please list the other Bentley brands/
products used in your project.

Sample Text

**What types of modeling did you use
in your nominated project?**

✓ Design Modeling

Project Description

Please provide details describing the important aspects of your project. Answer the following questions in approximately 200-500 words. For any fields that do not apply, mark "Not-Applicable" or "N/A".

Important Tip: Most often, the nominations that provide specific details and quantifiable, measurable and numeric data go on to qualify as the Winners and Finalists. The jurors need to understand the specifics of your project in order to evaluate it fairly against other submissions.

Project Overview and Challenge Description

Sample Text

Your answer should range from a minimum of 200 words to a maximum of 500 words.

Breakthrough Description

Sample Text

Your answer should range from a minimum of 200 words to a maximum of 500 words.

Results Description

Sample Text

Your answer should range from a minimum of 200 words to a maximum of 500 words.

**Please select the measurable or
projected results achieved using
Bentley technology:**

✓ Work hours saved

✓ Other

Please specify the measurable or projected results achieved using Bentley technology:

Sample Text

Please provide a quantitative measure/metric for the above results:

Sample Text

**Please indicate if your project
included work with any of the
following:**

✓ Microsoft Azure

✓ Bentley Systems Acceleration Fund

Please articulate the role and impact of *going digital* in your project.

Sample Text

Your answer should range from a minimum of 200 words to a maximum of 500 words.

Empowering Sustainable Development Goals (ES(D)G)

Please select the core sustainability category that best aligns with your project goals

(select a topic only if your project is actively aligned with it. Please refer to the guidance text for more details).

Healthy Communities

Please select the sub-topic that best aligns with your project goals

(based on the core sustainability category selected above).

Sustainable mobility

Briefly describe the net positive impact of your project on environmental and social sustainability

Sample Text

Your answer should not exceed 300 words.

Founders' Honors

Projects recognized with Founders' Honors represent both excellence and advancement in a way that is emblematic of Bentley's mission of *Advancing Infrastructure*. The achievements in such a project must transcend the narrower focus of any individual category in the standing awards. While there is no fixed criteria for this, we are always interested in innovative uses of technology, including, but not limited to, digital workflows, business intelligence, mixed reality, cloud services, and mobility, as well as process advancements like industrialization, virtualization, and institutionalization of standards, and advancements in terms of sustainability, safety, or benefits to society that empower sustainable development goals.

The exact number and names of recipients of Founders' Honors will be decided at a later time.

Media interview at the Conference

If selected a Finalist, are you interested in participating in a one-on-one media interview with a journalist from an industry publication during the *Year in Infrastructure Conference* ?

Yes

Would you like Bentley to share your email address and phone number with the interested journalists for easier coordination of the one-on-one interview at the Conference?

Yes

Quotation

Sample Text

Please type the name and title of the person to be attributed to the statement you provided as it should appear in print.

Sample Text

Credits

Please list any Bentley colleague(s) who assisted you with your submission.

Sample Text

Please list any Bentley Channel Partner who assisted you with your submission.

Sample Text

Please name the Bentley User Group that encouraged you to submit this project (if applicable)
